

## Additives Masterbatch

*Aksoy Plastik design, manufacture and sell a vast range of plastic additives for every type of market. From Processing Aids (PPA) for LLDPE, HDPE, PP and PA to Flame Retardants, Aksoy specialize in plastic additives to improve the performance characteristics of all the popular plastic com-*

*pounds.*

*For the food processing industry Aksoy supplies O<sub>2</sub> and CO<sub>2</sub> gas absorbers for keeping food fresh, along with Ultraviolet absorbers and stabilizers, antifog additives and antimicrobial additives to prevent bacteria and moulds from spreading.*

### OTHER ADDITIVES AVAILABLE FROM AKSOY ARE:

Application	Aksoy Additives
Multilayer films and sheets (Polyolefins, PVC, PS, PA, PET, CPP, BOPP, BOPET and BOPA)	Processing aid, Purge, Antistatic, Antifog, Gas absorbers, UV stabilizers and absorbers, IR absorbers, Antioxidant, Slip, Antislip, Antiblock, Gas barriers, Oxo-biodegradable additives, Antiroot, Antirodent, Color, White and Black MB
Rigid PVC (Window profiles, Sills, Panels, Sidings, Gutters and Pipes)	Mould release, UV stabilizers and absorbers, Antioxidant, Color, White and Black MB
Engineering plastics (SAN, ABS, PET, PBT, POM, PMMA, PA6, PA66, PC & all reinforced and modified polymers used in injection and extrusion applications)	Laser marking, Processing aid, Mould release, Antistatic, Flame retardant, UV stabilizers and absorbers, Antioxidant, Color, White and Black MB
PET (APET, PETG, CPET & RPET used in injection moulding and extrusion thermoforming applications)	Oxygen scavengers, Gas barriers, Processing aid, Antiblock, Mould release, UV stabilizers and absorbers, Antioxidant, IR absorber, Optical brightener, Color, White and Black MB
